Peach Payments data shows alternative online payment methods are gaining traction in South Africa.

Capitec Pay facilitates immediate payments from customers bank accounts via API, for fast, secure online transactions in three easy steps.
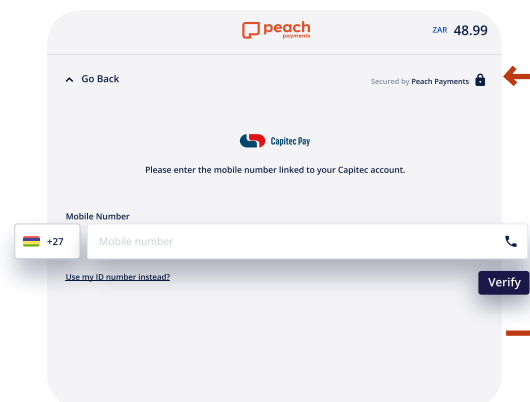

1. Select Capitec Pay at checkout
2. Input Capitec account-linked phone number or RSA ID number
3. Approve payment in the Capitec app

- Accessible to those who can't pay with card
- Payments are made instantly, with none of the transaction limitations of manual EFTs
- Stock doesn't sit - start preparing delivery as transaction happens
- Payment verification means no fraudulent transaction charge-backs
- Reduce admin with automated payment-to-transaction allocations
