

# Checkout quick-quick online with Capitec Pay

Instant EFT payments, no card required

Peach Payments data shows Instant EFT is a popular payment method in South African ecommerce

More secure than other Instant EFTs, as customers don't share their PIN or personal information with any third party.

Capitec customers can now purchase in three easy, secure steps:

1. Select Capitec Pay at checkout
2. Input Capitec account-linked phone number
3. Approve payment in the Capitec app

- Accessible to those who can't pay with card
- Payments are made directly to your account with none of the transaction limitations of manual EFTs
- Stock doesn't sit - start preparing delivery as transaction happens
- Payment verification means no fraudulent transaction charge-backs
- Reduce admin with automated payment-to-transaction allocations
- Less admin with automated payment-to-transaction allocations
