

# Card payments optimized for conversion and sales

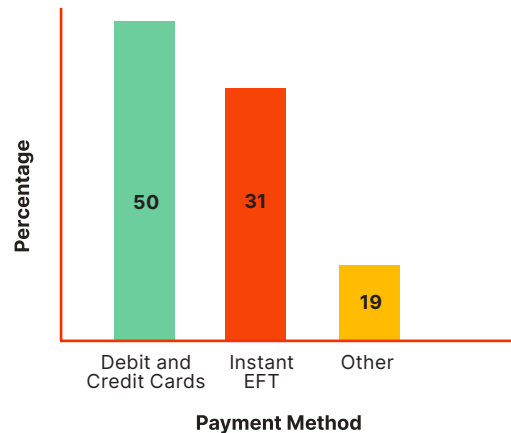

Safe and secure card payments that give your customers the confidence to pay online

"A small difference in transaction success rate can mean tens of millions of rands in revenue. Peach Payments delivers more successful transactions than anyone else."

- Ryan Bacher, MD, NetFlorist

Ecommerce Payment methods popularity

South African data from www.statista.com (2021)

## Real-time authorization

Card payments are the most efficient way to monitor and resolve your ecommerce transactions.

- Instant reporting informs you of the status of your transaction
- Next-day settlements put cash in the bank faster than any other payment method.
- No settlement fees

## Special features

When you pick Peach Payments as your online payment gateway, you get access to some of the most advanced features available.

- Recurring payments customized to your payment model
- Card storage systems that save your customer's details without security risks
- Single click checkouts
- Synchronize all transactions with Xero

## All the integrations you need
